Statistical Interpretation — A User’s Guide
Introduction ................................................................................................... v
Interpreting the Data ....................................................................................... v
Using the Survey Report ................................................................................ v

Key Findings and Demographics

Key Findings
Factors Affecting Compensation..................................................................... 2
Compensation to Production Relationships .................................................. 7
Compensation by Practice Total Medical Revenue ......................................... 10
Compensation by Quartile of Production ....................................................... 10
Factors Affecting the Patient Side of Care ...................................................... 12
Table A: Median Compensation for Selected Specialties, 2008–2012 ............ 13
Table B: Median Gross Charges (TC/NPP Excluded) for Selected Specialties, 2008–2012 .......................................................... 14
Table C: Median Collections for Professional Charges (TC/NPP Excluded) for Selected Specialties, 2008–2012 ................................. 15
Primary Care .................................................................................................. 16
Specialty Care ................................................................................................ 16
Nonphysician Provider Analyses ..................................................................... 17

Demographics — Medical Practice
1: Responses Received .................................................................................... 18
2: Geographic Section ..................................................................................... 18
3: HHS Region ............................................................................................... 18
4: Minor Region ............................................................................................. 18
5: Demographic Classification ........................................................................ 18
6: State ........................................................................................................... 19
7: Legal Organization ...................................................................................... 20
8: Organization Ownership ............................................................................. 20
9: Group Type ................................................................................................. 20
10: Single-Specialty Group Type .................................................................. 21
11: Integration Options .................................................................................. 22
12: Federally Qualified Health Center and Rural Health Clinic .................... 22
13: Total Medical Revenue ........................................................................... 22
14: Percentage of Capitation Revenue .......................................................... 22
15: Percentage of Ancillary Revenue ............................................................. 22
16: Health Records Storage .......................................................................... 23
17: First Year of EHR Implementation ........................................................... 23
18: Compensation Plan .................................................................................. 23

Demographics — Providers
19: Physician Specialty .................................................................................. 24
20: Physician Years in Specialty .................................................................... 26
21: FTE Physicians per Group ....................................................................... 26
22: FTE Physicians ........................................................................................ 26
23: Clinical FTE Category
24: Clinical FTE
25: On-Call Duties
26: Gender
27: Compensation to Gross Charges (TC/NPP Excluded) Ratio
28: Percentage of Technical Component Reported in Collections and Professional Gross Charges
29: Compensation Included Revenue from Separate Facility Fee

Physician Compensation and Benefits

Compensation
