Informed consent: When do you need it?

By Stephen Dickens, JD, FACMPE

Becoming risk-capable: A group’s transformation story

By Doral Davis-Jacobsen, MBA, FACMPE, and Stefan Magura

MGMA Connection Plus, mgma.org/connection-plus

Transparency matters
If you could find out how your prices compared with local medical groups, would you use that information to gain a competitive edge? Several states have all payer claims databases, which can be used for this purpose. How can you use the information to influence operations? Read more: mgma.org/APCD-use.

What MACRA means for you
Get a quick overview of the sustainable growth rate (SGR) repeal bill — Medicare Access and CHIP Reauthorization Act (MACRA) — and what it means for your practice. Learn about the evolution of Medicare quality reporting requirements and new opportunities for alternative payment models in Medicare from Allison Brennan, MPP, senior advocacy advisor, MGMA Government Affairs. Read more: mgma.org/macra-Brennan.

Managing patient refunds
Learn how to implement policies that will help your staff prevent patient refunds and effectively manage them when they occur, according to state laws that regulate unclaimed property. Read more: mgma.org/patient-refunds.
