The State of Medical Practice

Innovation is one of several themes you’ll find in the seventh annual State of Medical Practice issue that focuses on some of the challenging aspects of managing healthcare delivery venues. These articles bypass some of the theories that are frequently bandied about and delve into the practical elements of implementing change in healthcare settings.

Read the following articles, which are intended to prompt meaningful dialogue and help industry members support patient-centered, outcome-driven healthcare:

- Embracing innovation at the practice level (page 26)
- What are the best ways to engage staff? (page 29)
- Switching to value-based compensation requires data benchmarks (page 32)
- Assessing patient access to care (page 35)
- How do you encourage patient responsibility? (page 37)

Find more articles about the ways in which members are enhancing healthcare delivery in unique and valuable ways in MGMA Connection Plus: mgma.org/connection-plus and share your stories with us: connection@mgma.org.
Body of Knowledge

The content topic areas in MGMA Connection magazine are derived from the Body of Knowledge (BOK) for Medical Practice Management. Six issues of MGMA Connection feature a domain in the BOK. This issue highlights the State of Medical Practice. Search mgma.org/bok for coverage of the BOK domains. From the home page, search by domain name to find articles, products and more. To read past issues of MGMA Connection magazine, visit mgma.org/connection-plus.
