

Cost and Revenue Survey FAQ

WHERE DO I INCLUDE PHYSICIAN ASSISTANT AND NURSE PRACTITIONER FTE AND COMPENSATION?

Physician assistants, nurse practitioners, midwives, psychologists, dieticians and other advanced practice providers make up the total advanced practice providers full-time-equivalent (FTE).

Total advanced practice provider cost includes the cost of all your advanced practice providers, including advanced practice provider compensation and advanced practice provider benefit cost.

This is collected in the provider section of the survey.

HOW DO MULTISPECIALTY WITH SPECIALTY CARE-ONLY PRACTICES FILL OUT THE SURVEY?

Due to the range of specialties offered, practices that are "Multispecialty with Specialty Care Only" need to break out the data by each specialty or service line. Breaking apart the specialties offered allows us to report the data in a more meaningful and accurate way.

CAN ACADEMIC PRACTICES PARTICIPATE IN THE COST AND REVENUE SURVEY?

Yes. All academic departments are eligible to complete the Cost and Revenue Survey.

WHEN SHOULD I REPORT DATA FOR MULTIPLE PRACTICES?

If you have multiple practices, please break out your data for each individual location. If your organization is an integrated delivery system (IDS), hospital, management services organization (MSO), physician practice management company (PPMC), independent physician association (IPA), or other entity that owns, manages or provides services to medical practices, please report your data for each medical practice that you own, manage or service.

HOW DO I REPORT MULTIPLE PRACTICES?

By downloading the Excel, you are able to see and report each practice separately. For instructions on how to download the Excel, please refer to the **general MGMA Survey Participation FAQ**. You may also report multiple practices via the online survey portal, using the dropdown in the top center of the page once you begin your survey.

Cost and Revenue Survey

WHAT IF MY PRACTICE DOES NOT TRACK RVUS AND IT IS A REQUIRED SURVEY QUESTION?

The Cost and Revenue Survey contains a link in the Production tab allowing you to upload your provider's CPT data and calculate the number of Total and Work RVUs for your practice. Once calculated, you can then enter the respective values into your survey. You can also send your CPT data to **surveys@mgma.com** for a Data Solutions team member to upload into your survey for you.

HOW DO I ENTER DATA ON AMBULATORY SURGERY CENTERS?

Freestanding ambulatory surgery centers (ASCs) are not eligible for participation in the Cost and Revenue Survey. If your practice has ownership interest in an ASC and you do not track those financials separately, that data may be included in your submission for your main practice location. If the ASC has a separate tax identification number or otherwise has its financial data tracked separately, please do not include that data in your submission.

WHAT IF I AM UNSURE ABOUT HOW TO ANSWER A QUESTION PROPERLY?

Each survey has a "Definitions" button in the upper right corner explaining both the survey questions and possible answer choices. You can also view all survey guides and other helpful resources on our website [here](#).

WHAT IF I NEED MORE HELP?

Our participation resource page is full of documents to help you work through the surveys. **Click here** to view changes made to this year's surveys, survey question definitions and survey question checklists. If you have additional questions about MGMA survey participation, feel free to contact MGMA Data Solutions. Data experts are available Monday through Friday, 7 am to 5 pm MT. Call toll-free at **877.275.6462, ext. 1895**, email **survey@mgma.com** or send us a chat from within the survey platform.
